

*Road Band*

Trip; Trip

[I; INTRO:]

The road's a lonely place  
In between wide open space  
'Til we stop in your town  
Make you boogie on down  
Set up lots of lights  
make them shine on you bright  
set up towers of sound  
knock you into the ground

[EXTENDED INSTRUMENTAL IMPROVISATION]

[II; BRIDGE:]

[EXTENDED INSTRUMENTAL IMPROVISATION]

We're at the halfway point  
Let's smoke another joint  
Get this show on the road  
Take our minds off their load

[EXTENDED INSTRUMENTAL IMPROVISATION]

[III; ALLEGRE:]

[VERSE 1:]

This moment comes again  
We play for you our friends  
With your big eyes so wide  
Help you to see inside  
that you and we are one  
We're a Road Band

[CHORUS:]

We're a Road Band-  
Won't you give us a hand  
We've come to entertain you tonight.  
We're a Road Band  
Just a travelin' man  
Won't you dance this once tonight.

[VERSE 2:]

Many people they say  
We should stay on our way  
But you want us to stop  
Make you boogie and hop  
Music that gets you off  
We're a Road Band.

[CHORUS]

[VERSE 3:]

We play it all night long  
Lots of travelin' songs  
We've been through a lot  
Keeps us hot on the spot  
And nothing gets us down  
We're a Road Band.

[CHORUS]

[VERSE 4:]

Thanks for watching us play  
We'll be back on our way  
Until the next good time  
We know the sun still shines  
'Cuz we too are human  
You know we're a Road Band.

[CHORUS]
