

*Cybernaut*

Max; Max & Bert

[I:]

Can you fly through space

At an alarming pace

Reaching for a star

Using your keyboard

It's not very far

Let's all climb aboard

It's an interesting place

It's called cyberspace

[EXTENDED INSTRUMENTAL IMPROVISATION]

[II:]

If you're on the cutting edge

You're not sitting on a ledge

Get your shit together

Go now just forget her

Turn on, plug in, drop in

Learn on, chuggin', pop one

Roll own, chop it, cut it,

Toll zone, drop it, shut it

It's a very long road

But it carries no load

Binary packet bites

Outta space outta sight

[EXTENDED INSTRUMENTAL IMPROVISATION]

[III:]

This superhighway has no pilot

A mental outpost for no zealots

Access for all, let it be free

Info for you, info for me

You don't need to be a brainiac

You might almost be a maniac

A cybernaut's playground

Let liberty abound

A cybernaut's playground

Let liberty abound

[EXTENDED INSTRUMENTAL IMPROVISATION]
