

*Bending Minds*

Trip; Trip, Max & Bert

Iron on an anvil, noodles on a plate  
Pavement on a roadway, temper is still straight  
Lightwave by a black hole, leather on a last  
Runner for a snow-sleigh, dancing is a blast  
We're making time, making time  
We're bending minds, bending minds

[CHANGE]

Music flowing soaring high  
Steady slowly don't you slip  
Whatever it takes to get you by  
Join us on this epic trip

[CHANGE]

Life gives us challenges and hardships  
To be denied or an illusion to strip  
It's a little more hectic for everyone  
This modern day living under the sun

[INSTRUMENTAL BRIDGE]

Have a hug for the road you're off again  
Our paths will cross I don't know when  
To places and people who are not here  
We'll hug again and share some good cheers
