

The Acid Song

Trip; Too Cubed (1986)

I never saw such a sight
Dark turns to bright
Ignite that crazy light
Dancin' 'round all night
Acid can change you
Can it change the world?
It is what it is
Don't think too hard

A light shines darkly
Can you see it too?
I dropped some acid
Did you drop some too?
I hope you dropped acid
So you'll see it too
Let's drop some acid
See what it'll do
Darkness turns sparkly

Let's drop some acid
So we can dance all night
Did you drop some acid?
So you can see morning light?
Oh- it won't be long
Good feeling song
Oh life can be sad
Oh- it won't be bad
Don't you worry it's alright

I dropped some acid
Did you drop some too?
I dropped some acid
Did she drop some too?
If you dropped some acid
Then you'd see it too.

I dropped some acid
Did you drop some too?
I hope you dropped acid
Dance the world anew
Acid can change you
Can it change the world?
It is what it is
Don't think too hard

Did you drop some too?
I hope you dropped acid
Dance the world anew
You might try dropping acid
Oh- it won't be long
Until a new world dawns
The band will play another song
Oh- life can be sad
Oh- it won't be bad
Don't think too hard
